TESA CCMA Dial Calipers

The **shockproof system** in the TESA CCMA dial calipers guarantees reliable measurements, even in case of shock.

TESA, pioneer of the shockproof technology patented in 1970, still uses this system for all its dial calipers.

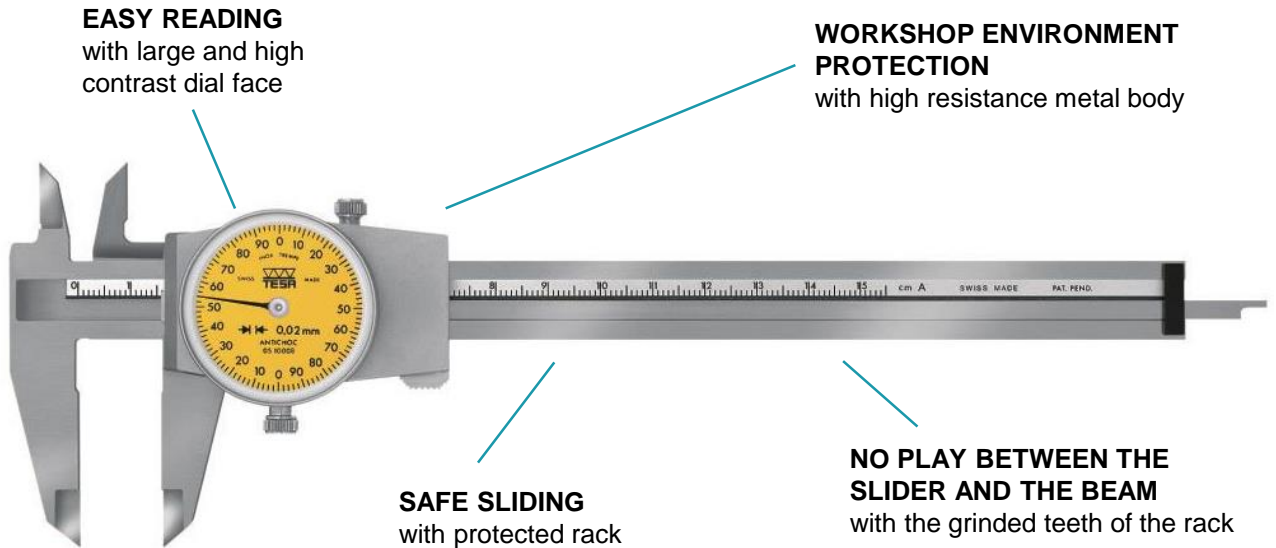

Shockproof system inserted between the mobile measuring element and the mechanism of the dial pointer.

Uniques features:

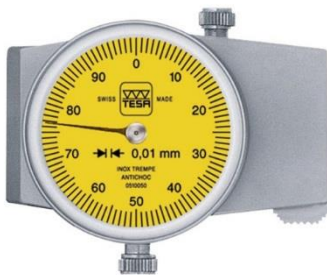

- Rugged construction
- Zero setting through rotating the dial face and locking screw
- Measuring faces made of hardened stainless steel

Advantages:

Models:

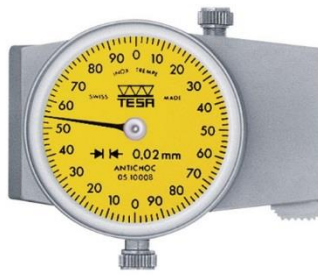

TESA CCMA-M
0,01 mm

0.01 mm 1 mm

Range	Order N°
150	00510050

TESA CCMA-M
0,02 mm

0.02 mm 2 mm

Range	Order N°
150	00510008
200	00510045
300	00510046

TESA CCMA-P
0,02 mm

0.02 mm 2 mm

Range	Order N°
